

KOWALSKI Heat Treating Company

K-FLAT Services

K-FLAT

The answer to close-tolerance, specialty flatwork concerns. Kowalski Heat Treating has developed a consistent system for your trouble flat work.

Our systems design team has spent literally thousands of hours fine-tuning a complete system for the processing of your product. Our goal is and has always been the satisfaction of our customers.

Prepared for Wide Variety of Products

Whether your product is a flat disc or a flat plate, Kowalski Heat Treating has an integrated system in place to oversee its quality processing. Our K-FLAT system was designed to accommodate all varieties, shapes, sizes and configurations of flat products. Depending on the specific needs of our customers, we are capable of retooling quickly, without interruption.

Tested Experience

Over ten years of experience in specialty flat work processing has brought Kowalski Heat Treating to the forefront in close-tolerance processing. The K-FLAT system has developed its efficiency through years of testing and fine-tuning. The typical "learning curve" commonly associated with specialty work has been eliminated. Contact our sales department for answers to your trouble flat-work projects.

New Product Development

Our product advisory group will work hand in hand with your engineers to analyze the variables involved in your product development. From resource acquisition to manufacturing and heat treatment, and ultimately to shipping of your processed product, we have the experience you need. Whether producing product for domestic or global distribution, Kowalski Heat Treating is prepared to work with your team to meet the challenge.
