

KOWALSKI Heat Treating Company

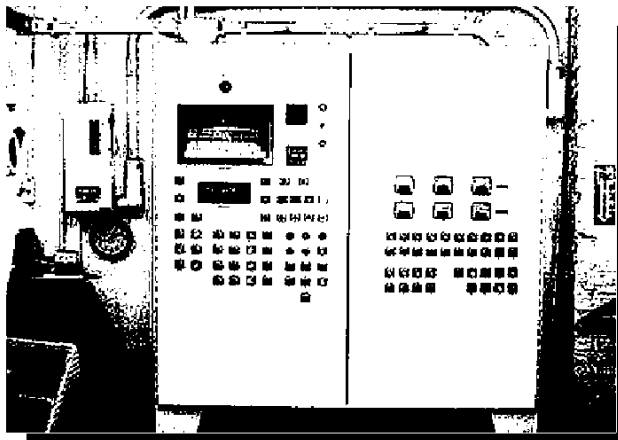

K-VAC Services

VACUUM SYSTEM INTRODUCTION

Kowalski Heat Treating Company has expanded its broad range of services through the introduction of its K-VAC Division, a brand new high-volume vacuum processing facility. These additions to Kowalski Heat Treating assure the very best in materials processing to meet your needs.

STATE-OF-THE-ART TECHNOLOGY

Kowalski Heat Treating Company is leading the way into the 21st century with the latest in state of the art technology. Our K-VAC Division is equipped with the most advanced microprocessor controlled monitoring systems. With the addition of North America's first 20 Bar vacuum furnace, the Kowalski Heat Treating Company offers you access to the most flexible vacuum processing available.

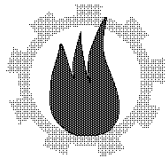

COMPLETE TRACEABILITY

We understand the need for complete traceability and integrated process control. Our on-line microprocessor communications ability translates directly into closer tolerance and repeatability in the processing your work. Constant data-logging allows us to track and analyze key process variables enabling continual process improvement.

COMMITMENT TO QUALITY

Our mission is to maintain the highest quality standards in our processing. Our success comes from a solid commitment to our customers. Kowalski Heat Treating will work to meet your strictest requirements - consistently and with quality.

*Ask yourself...
Do you need more ?
Are you just a number ?
Do you need daily delivery ?
Do you need complete traceability ?
Do you need immediate status on your work ?
Do you need one day turn-around on your tooling ?*
